

## Residential Dumpsters/Roll-offs

### \*\*Temporary Residential Containers

When to Use a Dumpster (6 yard):

\*Small remodeling projects      \*Cleaning out a house or garage

The 6 yard dumpster cost: A \$30.00 delivery charge plus \$30.00 charge every time it is emptied.

\*\*20 and 30 yard Roll-off Boxes

When to use a 20-30 yard Roll-off:

\* Renovating (shingling/siding)      \*Large construction projects

The cost is \$65.00 plus \$38.00 per ton every time it is emptied.

Think about the size needed: Your garbage needs to be level with the top of the container not over.

Virtually everything can go into a bin, **except** items that are classified as **hazardous waste (oil, paint, etc), appliances, or tires.**

**If you want to dispose of concrete, please inform us of this in advance.**

## Commercial Dumpster Rates
