

CURBSIDE BRUSH PICKUP

The City of West Fargo has a grapple truck for the purpose of curbside brush pickup. Below are the guidelines to ensure all brush gets collected:

- The Curbside Brush Pickup Program runs from May 1 to Oct. 31.
- All brush must be out by 7 a.m. on your garbage day.
- All brush must be in one pile cut to 4 feet and less than 10 inches in diameter.
- All piles must be at least 10 feet away from any tree, hydrant, streetlight, mailbox, utility box or anything in the boulevard that would impede the grapple from collecting the brush.
- Do not place brush piles on a sprinkler head, water shut off or underground utility.
- It is the resident's responsibility to clean up the site after brush collection.
- Roots and stumps cannot be collected by the grapple truck.
 - Bring these items to the Transfer Station at no cost at 1620 Main Ave W, West Fargo between 7:30 a.m. to 3:30 p.m. Monday through Friday, or 9 a.m. to 1 p.m. Saturday.
- Do not bundle or tie brush and/or branches together.
- Do not put brush in boxes, bags or garbage cans. The brush pile must be directly on the ground.
- The City of West Fargo will not collect any brush generated by a commercial tree service or private company.
- The brush pile must be placed on the resident's front boulevard.
- Excessively large piles will be picked up depending on availability.
- City generated mulch may be picked up for free at the Transfer Station during business hours.
